

# Hamilton-Wenham Regional School District Kindergarten Screening Program

State regulations in Massachusetts require all school districts to conduct a screening of all incoming kindergarten students. The Hamilton-Wenham School District believes that information for the screening needs to be gathered from multiple sources: parents, preschool teachers, kindergarten teachers. Please sign below for the district screening team to send out preschool report form to your child's current school, if they currently attend. This will help us gather the information we need to best serve your child.
